Create an image of a statue of the pharaoh Khafre with the Falcon God Horus, that was found in the Pharoh's temple and was made during the 4th dynasty in 2500 BCE. For the material use Diorite to emphasize the immortality and indestructible nature of the Pharoh. This material was used because it would ensure the statue would remain his home for the rest of eternity. The Falcon God Horus perches on the throne behind the Pharoh's head while he is sitting in it, and this will signify the Pharoh's importance.
